

Case Study

Hywel John Surveys – Mobiles

Blend provided Hywel John Surveys with a fit for purpose mobile device perfect for their field work. The company was also helped by Blend to make the switch from EE to O2 for better signal, as well as easy billing through Blend's bespoke online platform.

“Great knowledge and service, highly recommend using Blend Telecom”

– HYWELL JOHN
PROPRIETOR

Hywel John Surveys provides surveying expertise for important construction projects across South Wales. Their work means that they are constantly out of office and on site, raising the need for sturdy mobile phones that can provide high speed, high quality voice, and data connections no matter the location.

Blend Telecom provided Hywel John Surveys with a fit for purpose mobile device - sturdy, efficient and perfect for field work. Blend also offered a tailored mobile phone plan with a dedicated account manager to help Hywel John Surveys take advantage of the best tariffs in the market and save money.

Blend's close partnerships with leading network providers meant that Hywel John Surveys were able to seamlessly make the switch from EE to O2 for better signal fit for field work. Billing is also made much easier through Blend's bespoke online platform, which enables our customers to quickly access their mobile plan and understand their data usage to prevent any surprise fees. Bills are also addressed by a company name to make VAT claims easier and updates to expenses quicker.
